

Dear DG Saga,

Thank you for sending your GML "rotary beats" regularly."Leaders dont do different things. They do differently"- Shiv Kera. This quotation rightly applies to your dynamic leadership. Your GML rotary beats is just like Rotary News except for number of pages. it is not an easy thing to publish such issues every month. Your rotary beats is attractive,lot of information, detail information of your official visits to clubs. It will not allow the reader to have a break in between instead it will make the reader to read it form the first page to the last page in one go. My hearty complements. My wife Bharathi Chandrashekar , president elect also joins me in congratulating you. We wish you to grow to higher heights.

Warm regards

Dear DG Dr Saga

I have been receiving your Monthly letter "ROTARY BEATS" continuously, and I admire the way the GML is conceived, compiled and printed on par with any of the Regional Rotary Magazines. The detailed coverage of Club visits surely motivates the Club leadership as well as the Members. This is indeed the best way to touch the heart of the Rotarians and enliven them to the core values of Rotary.

Please accept my heartiest congratulations to you, the District Leader, and the Team that supports you in every details.

Warm regards,

Sincerely,

D.VARADA REDDY
